## KEY FEATURES

**Measurement Range:** 0-100%

**Accuracy:**  $\pm 1\%$  of measured value

**Display:** High-resolution LCD screen for clear readings

**Response Time:** Less than 2 seconds

**Calibration:** User-selectable single-point or multi-point calibration

**Connectivity:** USB and Bluetooth for data transfer and remote monitoring

**Operating Temperature:**  $-10^{\circ}\text{C}$  to  $50^{\circ}\text{C}$

**User Interface:** Intuitive navigation

**Alarm Function:** Configurable high and low oxygen concentration alarms

**Maintenance:** User-replaceable sensor and easy-to-clean design
